

March 29, 2018

Hi duPont Guidance Counseling Team,

I hope this surprise package finds you doing well. I've been in touch recently via email, but I wanted to follow up with a physical package to express how much we believe in the potential of duPont's students.

As a reminder, Quarter Zero is the entrepreneurial experience for young people. With Quarter Zero, you can extend your students' learning and development through our immersive, real-world entrepreneurial environment. Our various experiences are designed to complement the classroom, pairing students with industry advisors to build tangible skills and challenging them to become problem solvers that are equipped to thrive in a competitive and rapidly changing world.

We have full-tuition scholarships available and are accepting applications for two entrepreneurship experiences until our **deadline of April 30th**:

- **Catapult Incubator**, a 6-week program that provides the opportunity for student-led teams to develop a venture while working with experienced advisors and facilitators.
- **Startup Bootcamp**, our new, 10-day intensive program that gives students the tools to get started on a venture and to develop an entrepreneurial mindset.

In this package, I have included some **posters** for bulletin boards & classrooms and **flyers** to lay out in the guidance counselor office. If for some reason you do not think your students would be a fit for our program, please feel free to disregard this package, and I apologize for any inconvenience.

Lastly, please feel free to email or call me if you have any questions, thoughts, or want to nominate a specific student.

Thank you for your time and wishing you a great day ahead.

Onwards,

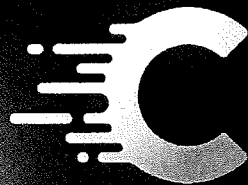

Christine Sanderson
Program Manager
